DETAILED ACTION

Election/Restrictions

Claims 10-18 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 11-10-05.

Information Disclosure Statement

The information disclosure statement filed 7-22-04 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the abstract provided by applicant does not match Japanese patent. The abstract is for a 'write amplifier circuit' classified in H03F 3/72 and the Japanese patent is a golf ball classified in A63B 37/00. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

Drawings

The drawings filed 8-4-04 are objected to because the tables provided are not in English (figures 8-9).

In figure 1 it is not clear how the sectional view relates to figure 2. If the sectional view is taken from figure 2 please provide the location in each figure.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. No antecedent basis for 'circular arc section'. Applicant appears to redefine the term 'notch' in claims 8 and 9, see claim 7 where 'notch' is defined. Is this a second notch?

Allowable Subject Matter

Claims 1-7 are allowed.
